

HOLISTIC HEALING 4 LIFE

Healer & Holistic Provider Partnership Opportunity

A community-centered network connecting people with trusted holistic healers, wellness education, and personalized pathways to care.

WHY WE ARE BUILDING THIS NETWORK

Many people want holistic support but do not know which modality fits their needs, where to begin, or how to find a trusted provider. HH4L helps people start with education and wellness scans, understand their options, and connect with participating independent healers and providers.

This is a collaborative network, not a franchise. Each healer keeps their own identity, practice, professional responsibilities, scheduling, and client relationships.

HOW PARTICIPATING HEALERS MAY BENEFIT

- Visibility through the HH4L website and participating-provider network.
- Introductions and referrals from people exploring a personalized holistic healing roadmap.
- Opportunities to share your modality through classes, demonstrations, interviews, events, and educational content.
- Connection with other healers for collaboration, cross-referrals, and community support.
- Participation in HH4L membership benefits, when mutually agreed, including a clearly stated member discount or special offer.
- Opportunities to support human wellness, pet wellness, or both, depending on your services.

ADDITIONAL BUSINESS GROWTH BENEFITS

Build Your Own Database	Explore Business Funding	Accept CareCredit
Build a permission-based customer database for reminders, events, classes, follow-up, and special offers.	Explore SenText Capital funding options for business growth. Separate qualification, application, lender approval, and terms apply.	Explore provider enrollment to accept CareCredit and offer eligible clients a way to pay over time.
